Publication of the Current Patent Rules in Title 37, Code of Federal Regulations

The U.S. Patent and Trademark Office (PTO) announces the availability of a publication of the patent rules in title 37, C.F.R., that is current as of February 4, 1998. The PTO has recently revised the rules of practice in title 37, C.F.R. See Changes to Patent Practice and Procedure: Final Rule Notice, 62 Fed. Reg. 53131 (October 10, 1997), 1203 Off. Gaz. Pat. Office 63 (October 21, 1997), and Changes to Continued Prosecution Application Practice: Interim Rule Notice, 63 Fed. Reg. 5732 (February 4, 1998); 1207 Off. Gaz. Pat. Office 83 (February 24, 1998). The Office of the Federal Register (OFR) annually publishes the C.F.R. as in effect on July 1. Thus, the latest, or July 1997 revision of, title 37, C.F.R., as published by the OFR does not reflect the rules of practice as revised by the above-mentioned rule makings, and the OFR is not expected to publish the next revision of title 37, C.F.R., until after July of 1998.

35 U.S.C. § 11(a)(6) authorizes the Commissioner to print pamphlet copies of, inter alia, the patent rules of practice. To respond to the public demand for an immediate C.F.R. publication that reflects the above-mentioned changes to title 37, the PTO has published title 37, C.F.R., reflecting the patent rules of practice that are in effect as of February 4, 1998. The PTO is offering this publication for sale in paper (8 1/2 inch by 11 inch loose-leaf pages shrink-wrapped but without a binder) for $30 per copy. This publication is also available at no cost on the PTO's Web site at **www.uspto.gov**. The public will be notified when the publication is available on CD-ROM.

Order forms are available at the Reception Desk, Patent Search Room, Crystal Plaza 3, Rm. 1A01; on the PTO's Web site; and by calling the Office of Electronic Information Products (OEIP) at (703) 306-2600. Those wishing to place orders should submit an order form, together with payment or payment authorization, to:

U.S. Patent and Trademark Office
Office of Electronic Information Products
Crystal Park 3 - Suite 441
Washington, D.C. 20231

Orders will also be taken by facsimile at (703) 306-2737, or in person by OEIP in Crystal Park 3, Suite 441, Arlington, Va., 22202.

Payments should be by check or money order payable to the Commissioner of Patents and Trademarks, or, with authorization, charged to a PTO deposit account, VISA®, or MasterCard®. Notebooks and CD-ROMs will be mailed by first-class mail to addresses in the United States, Canada, and Mexico, and by airmail to all other addresses; or, at the requestor's expense, by FedEx.

Status of Certification Services

On November 28, 1995, the Office published an Official Gazette Notice entitled "Temporary Suspension of At Cost Services for Orders for Certified Copies" (1180 OG 121) to advise practitioners and the public of delays in filling orders for certified copies of PTO documents. This is an update of

actual days to mail for orders filled during the month of February 1998:

Certified Product	Goal	Actual Calendar Days to Mail
Patent Application-As-Filed, Expedited	7	6
Patent Application-As-Filed, Regular	17	20
Patent Related File Wrapper	25	47*
Patent Copy	10	5
Patent Assignments	10	9
Trademark Application-As-Filed, Expedited	7	5
Trademark Application-As-Filed, Regular	17	16
Trademark Related File Wrapper	25	17
Trademark Assignments	10	12
Trademark Registration, Expedited	5	5
Trademark Registration, Regular	14	16

* Includes turnaround times for files on official search and file reconstruction.

Due to varying availability of media, customers will not be advised when orders are not delivered within the published goal periods. However, customers will be advised if any unexpected delay in their order has been identified. Customers should use the above actual days to mail for each product as a guide as to when they can expect their orders. In determining expected delivery times, the day an order is received in the Office is calculated as "day zero." The next business day is "day one."

Delivery of any specific copy will vary based on the availability of scanned images, microfilm products, and/or file accessibility. On June 10, 1997, the Office published an Official Gazette Notice entitled "Changes in Practice in Supplying Certified Copies and Filing Receipts" (1199 OG 39) which advised customers who placed orders for certified copies of patent applications-as-filed not to request them until the official filing receipt is received; images and related bibliographic data are not available to Certification Division until the filing receipt is generated by the Office of Initial Patent Examination.

Customers are encouraged to fax orders for copies directly to Certification Division at (703) 308-9759 and to pay by PTO Deposit Account, MasterCard, or Visa. Information on the status of pending orders may be obtained by calling (703) 308-9726 or 1 (800) 972-6382 (outside the Washington, DC Metro area), or via E-mail: certdiv@uspto.gov.

Notice Regarding Technical Center Box Issue Fee Mailings

The Office will begin mailing address labels with the PTOL-85, "Notice of Allowance and Issue Fee Due" for patent applications allowed in all Technology Centers. These address labels should be used to ensure proper routing of post-allowance correspondence. This directive supersedes the "Special Boxes for Patent Mail" instruction. Any Notice of Allowance and Issue Fee Due received without the accompanying address labels should continue to be addressed to Box Issue Fee.

Reference Collections of U.S. Patents and Trademarks
Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information from the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis CD-ROM series are available at all PTDLs to increase access to that information. It is through the CD-ROM systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI³) in Sunnyvale, California.

*A communication from the examiner should have been received in most applications filed prior to this date.

Patents will Expire as Follows:

(1) The term of any utility or plant patent that is in force on or results from an application filed before June 8, 1995 is the greater of the 20 year term provided in 35 U.S.C. 154(a)(2) or 17 years from grant subject to any terminal disclaimers. 35 U.S.C. 154(c)(1).

(2) All utility and plant patents granted on applications having an actual United States filing date on or after June 8, 1995 are granted for a term which begins on the date on which the patent is granted and ends 20 years from the date on which the application was filed in the United States. If the application contains a specific reference to an earlier application under 35 U.S.C. 120, 121 or 365(c), the patent term ends twenty years from that date on which the earliest application was filed. 35 U.S.C. 154(a)(2).

(3) All design patents are granted for a term of 14 years from the date of the grant.

However, the term of any patent may have been curtailed by disclaimer under the provisions of 35 U.S.C. 153, have lapsed due to failure to pay maintenance fees, or have been extended under the provisions of 35 U.S.C. 154, 155, or 156. Thus, if more reliable information is needed with respect to a particular patent, then the specific patent file should be reviewed to determine the actual date of patent expiration.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.
